What we do

We guide you through every step—from selecting the right van to choosing the ideal lift and layout.

We provide safe, reliable, and comfortable full-size van conversions designed for accessibility.

Our goal is simple: give people the freedom to travel with dignity and confidence.

Van Platforms

**Mercedes-Benz
Sprinter**

Premium comfort and safety engineered for reliability.

Available in cargo or passenger configurations.

Ideal for accessibility and transport conversions.

**Ford
Transit**

Versatile and capable for a wide range of needs.

Available in cargo or passenger configurations.

Flexible platform for many mobility applications.

**Ram
ProMaster**

Practical full-size option built for real-world use.

Wide interior feel with excellent cargo volume.

Often used for accessibility and commercial conversions.

Cargo vs passenger

CARGO VAN

Open space for custom layouts

Flexible upfitting options

Great for equipment, stretchers, or specialized needs

PASSENGER VAN

Seating for passengers

Comfortable & spacious interiors

Ideal for groups, shuttles & family transport

We'll help you choose the right layout for your needs and budget

*AWD and RWD available where applicable. Options vary by model. Ram ProMaster is typically FWD.

Lift options

We partner with trusted lift brands.

 **BraunAbility**

 **Ricon
Faiveley**
A **Wabtec** company

Both lift options are safe, reliable, and designed for everyday use.

Rear Lift

- Keeps side door access open
- Great for high-traffic loading

SIDE LIFT

- Convenient side entry access
- Great for passenger vans
- Easy boarding in tight spaces

Why Full-Size Vans Work

- ✓ Space for wheelchair users, caregivers, and additional passengers
- ✓ Flexible seating and wheelchair positions
- ✓ Rear or side lift accessibility options
- ✓ Suitable for recurring daily transportation
- ✓ Cargo or passenger van configurations available
- ✓ Practical for organization and fleet use

Common Use Options

Group Home Transportation

- Daily outings and activities

- Appointments and essential trips

- Recreation and social programs

- Community engagement and access

- Multi-passenger and wheelchair support

Non-Emergency Transport

- Medical appointments

- Facility transfers

- Day program transportation

- Scheduled community transport

We help tailor lift access, seating layout, wheelchair positions, and interior configuration based on your transportation needs

Our Process

1

Tell us your needs

Share your goals, passengers, and how you plan to use the van.

2

Choose a van

We help you select the best platform and configuration.

3

Select lift and layout

Pick the lift option and interior layout that fit your needs.

4

Delivery

Professional conversion, inspection, and delivery ready for the road.
